

Faisal Shabber

Senior Frontend Developer | React.js · Next.js | Strapi(CMS)

Lahore, Pakistan • Faisalshabber113@gmail.com • +92 (307) 4187948

[LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with **4 years** of experience building scalable, responsive web applications using **React.js** and **Next.js**. Proven ability to deliver end-to-end full-stack projects with **Strapi CMS**, Redux state management, and REST API integrations. Adept at translating Figma designs into pixel-perfect, cross-browser compatible UIs. Experienced collaborating with remote and on-site international teams across Pakistan and Bahrain.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), Typescripts, Redux, HTML5, CSS3, Tailwind CSS
Backend:	Strapi CMS, REST APIs, Node.js
Database:	SQLite, PostgreSQL
Version Control:	Git, GitHub, Bitbucket
Design Tools:	Figma, Adobe XD, Design Systems, Prototyping
AI Tools:	GitHub Copilot, ChatGPT, Cursor, Claude, Gemini
Deployment:	Vercel, CI/CD Pipelines
Practices:	Agile/Scrum, Responsive Web Design, Cross-Browser Compatibility,

WORK EXPERIENCE

Frontend Developer | **Smashcloud**

May 2024 – March 2026

Remote

- Delivered **3 end-to-end full-stack** projects (**CoverClarity**, **Teamcap**, **SmashCloud**) using **Next.js** frontend and **Strapi CMS** backend, all deployed to live production.
- Accelerated UI development by integrating **MCP** (Model Context Protocol) with AI-assisted workflows, reducing design-to-development turnaround time by an estimated **80%**.
- Collaborated with stakeholders throughout the development process to confirm creative proposals and align implementation with design best practices.
- Performed major dependency upgrades, migrating projects to React 19.2.1 and Next.js 15.5.7 (latest stable), improving performance, security, and long-term maintainability.
- Built and configured Strapi CMS from scratch, managing full content architecture, backend workflows, and secure REST API integrations.
- Engineered Redux-based state management, improving application data flow and scalability across multiple projects.
- Developed pixel-perfect, mobile-first UI components from **Figma** designs, achieving full responsiveness across all screen sizes and browsers.
- Reduced integration overhead by implementing reusable component libraries, cutting development time on new features by an estimated **25%**.

Frontend Developer | **Aurum**

Apr 2024 – Sep 2024

Bahrain (Lahore + 1 month On-site)

- Developed a high-end **e-commerce** platform in **React.js** with product listings, checkout flow, and interactive user dashboards, delivering all sprint features on schedule.
- Collaborated on-site with international stakeholders to align development requirements and project scope.
- Optimized frontend code for fast load times, reducing initial render delays by **~20%** ensured cross-browser compatibility across all major browsers.
- Implemented mobile-first UI components using custom React components to support dynamic content and complex UI interactions.

Lahore, Pakistan

- Designed and developed a custom **NOC Management System** dashboard with fully functional admin panels, managing **3+ internal** operational workflow pages.
- Built and customized web UI components using **React.js** and modern frontend technologies; integrated WordPress themes and plugins across 2+ client platforms.
- Maintained **Figma** prototypes and design systems, ensuring consistent alignment between designs and implemented interfaces.
- Optimized frontend performance and code maintainability across multiple internal platforms.

PROJECTS

Process Parrot

React.js · Custom CSS

- Developed custom software interface with tailored UI components and modular CSS for maintainable code.

PawTree

Next.js · Tailwind CSS

- Implemented account settings UI focusing on responsive design, clean UX, and cross-device usability.

HNL NOC Management System

React.js · Chart.js · Custom CSS

- Developed custom dashboards and data visualization components for operational workflows.
- Improved admin panel usability and consistency across all inner pages.

Aurum E-Commerce Website

React.js · Tailwind CSS

- Built high-end e-commerce platform with responsive design, product pages, and interactive shopping features.
- Implemented mobile-first UI with dynamic product listings and optimized checkout flow.

SmashCloud

Next.js · Strapi CMS · REST API · Tailwind CSS

- Built full-stack web platform with responsive UI, Strapi CMS backend, and complete API integrations from scratch.
- Managed content architecture and deployed live production environment serving real users.

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

Sep 2018 – May 2022

Virtual University of Pakistan

UI/UX PORTFOLIO

UI/UX design work available on [Dribbble](#) and [Behance](#) — showcasing interface design, prototyping, and design systems.
